## Both Games Close

## Elks and Indians Split Games on Sunday

The Picture Butte Indians and Vulcan Elks fought each other into the diamond here twice Sunday and when the contests were over neither team had been able to gain any ground although a win by each pushed them slightly nearer the Lethbridge Miners who lost and tied with the Granum White Sox.

Vulcan took the first contest in 12 innings by a 3-2 score as hurler Bill Davidson won his own ball game with a ringing single to provide the margin. Gerry Harrison was the loser.

In the second match Picture Butte built up a healthy lead and staved off a last-ditch rally by the Elks. The final score was 8-7.

Tom Snowden was the winner, needing relief from John Chavez in the eighth. Pat Gillick went the distance for the losers and was charged with the loss.

Auggie Scornalehchi slammed a triple and single in six trips for the Elks while Don Jantzie had two singles and was on second when Davidson hit his game-winning single. It was Davidson's second hit.

Mako Tashima was the only Indian to solve Davidson for more than one single, with two in four trips.

Harrison walked and struck out six while Davidson walked seven and struck out 10.

In the second game Hans Pung, Harpo Moriana and Ron Nolan each pounded out two hits in four tries to lead the Indians to their victory. Don Berkle had two for four, Jim Pruden two for five and Don Jantzie three for five for the Elks.

The losers threatened in the ninth when they pisted one run and had two runners on base when Chavez bore down to strike out Don Jantzie and end the game.

Snowden struck out seven, walked two, while Chavez walked one and struck out two. Gillick whiffed five Indians but issued ten free tickets to the gateway sack.

## Sparks-Richardson Wedding Ceremony

A quiet wedding was solemnized in the Vulcan United Church on Sunday, July 9 when Helen Maureen, daughter of Mr. and Mrs. Edward Richardson was united in marriage with Gerald Edward Sparks, son of Mr. and Mrs. E. W. Sparks of Vulcan, with the Rev. J. S. Clarke officiating.

The church was decorated with ferns and bouquets of peonies. Also used in decorating were baskets of red and pink roses brought from Toronto by the bride's aunt, Miss Margaret Campbell.

Given in marriage by her father, Ed Richardson, the bride wore an off-white crystal gown and white hat, and she carried a bouquet of red roses and white mums. Her only ornament was a necklace, the gift of the groom.

Her two attendants, Donna Doane, bridesmaid and Lynne Richardson, junior bridesmaid, wore pink and blue gowns respectively, with matching hats. They carried white Bibles, mounted by corages of roses and white satin streamers.

The bride's mother wore a navy nylon mesh gown, while the groom's mother was attired in turquoise silk. Both wore white corages and accessories.

Attending the groom, was his brother-in-law, Harold Mensinger, and ushers were Ralph Richardson and Lloyd Isles. Mrs. Clarke, who played the wedding march, also accompanied the soloist, Stuart Campbell.

A reception was held at the home of the bride's grandparents, Mr. and Mrs. W. Oldfield. The room was decorated with pink and white streamers and wedding bells. Pink and white tapers and bouquets of pink roses decorated the tables. The bride's table was centered with a two-tiered wedding cake with base of blue tulle and red roses. More than fifty guests sat down to a delicious wedding supper.

Guests from a distance were W. Durstan, Mr. and Mrs. W. D. Campbell, Mrs. Stewart and girls, Mr. and Mrs. C. Sheepy and sons, all of Calgary; Mr. and Mrs. Edlund of Fort Macleod; Mr. Sparks, Nanton; Miss M. Campbell, Mrs. Art Levitt and John and Terry of Toronto.

The young couple will make their home in Vulcan.

and Jim Pruden slammed a homer, a double and single.

## B. R. All Stars To Play Lethbridge

A Wheatbelt League Babe Ruth All Star team will play Lethbridge for the right to advance in the North American playoffs.

Starting a best of three series in Champion on Friday, July 20 at 2:00 p.m., these boys will battle it out to see who advances to the final playoffs held in Wyoming, U.S.A. sometime in August. Final two games will be in Lethbridge, Wednesday, July 25.

The All Star team is being selected by the coaches of the four teams in the Wheatbelt Babe Ruth League, and hope to give a good account of themselves against the powerful Lethbridge aggregation.

## Local Team In Fastball Playoffs

In Central Alberta Fastball Playoffs played here Sunday, Dinton defeated Vulcan by an 8 to 1 count in the first game but lost the second of a double-header to the Vulcan crew by a 11 to 6 margin.

Danny Watson was individual star of the first game as he gave up only five scratch hits to the Vulcan crew. Clare Schneider hurled 9-hit ball for the losers but poor support in the field hurt the Vulcan squad chances.

The second game saw Vulcan's Mac Boyce hurl 6-hit ball to pick up the win as the Vulcan crew collected 12 hits off two Dinton hurlers. The locals swept to a 9 to 0 lead then coasted home to win 11 to 6 giving Dinton a 2-run lead in total runs should next Sunday's games at Dinton be rained out.

## Prizes Awarded Paintings By School Children

Miss Edith Boose who is the Grade III teacher at Turner Valley entered a number of pieces of her pupils' art in the Calgary Exhibition. The following pupils received prizes:

Donna Thebeau, an Indian Scene; Dale Soucy, Lilacs; Virginia Cowan, Children by the Lake. Those who received the award "Highly Recommended" were Walter Conbeare, Swans on a Foot-hills Pond; and Dale Soucy, the Lone Rider.

The Christmas scene, 2 1/2' by 4' was painted by 13 pupils of Grade III, and was entered in the non-competition class and received special placing for show and favorable comments. Most of the art was done with oil paints.

The Albertan, on July 11, commented on the art exhibit as follows:

"Schools from all over Calgary and country schools as far distant as Humboldt, Sask., are represented here. One of the most arresting phrases is that of a Christmas scene of black houses silhouetted against a brilliant blue sky which was done by 13 students at Turner Valley, Grade III."

## Big Conversion Job

## Ventura Fuselages at Vulcan Become Top-rated Aircraft

Brendan Bushe, of Howard Aero Inc., San Antonio, Texas, was guest speaker at the regular meeting of the Vulcan Lions Club Monday evening. Mr. Bushe gave a very interesting talk illustrated with colored movies, on the aircraft overhaul and repair work his firm has been doing at the Vulcan Airport for the past 18 months.

Howard Aero Inc. does conversion jobs on standard type aircraft, to fit them out as luxurious executive planes for sale to large companies. The performance of such executive aircraft must equal or better that of scheduled airliners and they must be fitted out with the latest safety devices and navigational aids such as radar and gyro automatic pilots.

Mr. Bushe's company had found that the Lockheed Ventura PVI airplane was very suitable for conversion to the type of plane needed. Although outmoded for military use, the planes are fast and roomy. Mr. Bushe came to Canada in 1954 and found that a few of these Ventura planes were in storage at Picton, Ont., and at Regina. After buying these from the government he flew to the Vulcan Airport, where 12 Venturas had been stripped for salvage. All that remained, in most cases, was the stripped fuselage. Although one or two still had wings, the engines, undercarriages and electrical systems were gone. Then it was discovered that there was a good stock of spare parts for this type of plane in store at Macleod Airport, so he bought the fuselages for his company, hired mechanics, and undertook the big job of rebuilding the planes so they could be flown to Texas for the complete conversion job.

Motors and wings from the complete planes previously purchased are brought to Vulcan, reassembled with the fuselage, electrical and hydraulics systems installed and one of the planes here made airworthy. Then it is flown to San Antonio and the motors (and wings, if necessary) brought back to Vulcan by truck to allow another complete aircraft to be assembled. The twelfth and last plane is now being assembled here.

At Howard Aero's plant at San Antonio, each of these salvaged planes undergoes a complete transformation. The two 2800 h.p. engines are replaced by more powerful engines, the fuselage is lengthened by four feet (which, incidentally, was found to greatly improve the handling of the plane in the air), the wings are modified, bomb bays and gun fittings are removed along with other equipment necessary in a bomber plane (saving 3,000 lbs. weight), gasoline-carrying capacity is increased, the interior is luxuriously fitted out, radar and other safety features are added and the former Ventura bomber becomes the Super Ventura executive-type plane, carrying 18 passengers plus crew and able to cruise at 310 miles per

## Wilson-Graham Rites Solemnized

Baskets of summer flowers and ferns decorated Vulcan United Church on Saturday, July 15 when Miss Leslie Emma Graham, daughter of Mr. and Mrs. Clifford Graham, was united in marriage with Roy Gardiner Wilson, son of Mr. and Mrs. F. A. Wilson, Calgary. Rev. J. S. Clarke officiated at the double-ring ceremony.

Given in marriage by her father, the bride wore a floor-length gown of imported Italian tulle over satin with applique of petit point lace. It featured a fitted bodice with scalloped mandarin type collar. From her headress of pleated nylon tulle embroidered in iridescent sequins and seed pearls misted her fingertip veil of silk illusion. She carried a white Bible topped with sweetheart roses and streamers knotted with rosebuds and lily-of-the-valley.

Mrs. Lois Roberts was her sister's matron of honor and Mrs. Freda Jones her attendant. They wore identical ballerina length strapless gowns of nylon net and lace with matching jackets of lace. Their headresses were of pleated net and forget-me-nots, and they carried colonial bouquets of gladioli and carnations.

Valetie Graham and Dime Roberts, nieces of the bride, wore flower girls. They wore similar gowns of yellow embroidered nylon with bands of tiny yellow rosebuds and pleated tulle in their hair and carried colonial bouquets of yellow mums and carnations.

Bestman was Don Wilson, brother of the groom. Ushering the guests were Jim Wilson, cousin of the groom, and Glen Graham, brother of the bride.

Mrs. Wm. Hilt, soloist, sang "A Wedding Prayer" before the ceremony and "O Promise Me" during the signing of the register. Mrs. W. W. Almond presided at the organ.

Following the ceremony a reception was held in the church parlors. The bride's table was centered with a five-tiered wedding cake made by a friend of the groom's, R. Kolawik, Calgary, as a wedding gift and with tall pink tapers and sweetheart roses. The bride toast was proposed by Art Jones and fittingly responded to by the groom.

For going away the bride changed to a blue-grey suit with pink and white accessories and sweetheart rose corsage. Upon their return, Mr. and Mrs. Wilson will reside in Calgary.

hour at 30% of full power, with a non-stop range of 2,700 miles. Completely fitted out, the Super Ventura sells at \$410,000 and is recognized as the best plane on the market for the type of flying required.

## Frequent Thunderstorms

## Some Hail Damage In Carmangay Area

Frequent showers have fallen throughout the district this past week, accompanied in some instances by hail, with varying damage reported.

Rainfall in Vulcan, as recorded by Everett King, was .28 of an inch on July 13, .4 on July 14 and .4 on July 16.

A thunder and hail storm swept across parts of the district late last Friday afternoon, with the Stavelly, Carmangay and Nanton districts reporting hail damage to crops. At Carmangay, windows in the hotel and in some farmhouses were broken by large-sized hailstones. The storm in this area swept east along the north side of the Little Bow River and crop damage up to 75% has been reported. Crop damage is also reported between Nanton and the Little Bow River. On Monday, a 20-minute hailstorm in the Cayley district caused damage up to 100% in an area four miles long by one-half mile wide.

No severe hail damage has been reported in the immediate Vulcan district at the time of writing and crops are in excellent condition.

## Women's Society Holds Meetings

The Women's Society of World Service met July 12, at the home of Mrs. H. Hilt. Mrs. C. Budd was in charge of the entire evening.

Roll call was answered with Scripture verses, by eight members. It was announced that the district fall rally of the WWSW was to be held at Didsbury, Sept. 9. A devotional period followed.

Miss Dora Spady brought a lovely piano solo, and the speaker of the evening was Miss Olga Pahl, missionary candidate to India. At the close of the meeting, the hostess served a lovely lunch.

The June meeting was in the form of an outing at Little Bow Park.

The members with their families as guests, met for a picnic lunch, and after an enjoyable afternoon also had supper at the park.

The business meeting and a short devotional were part of the day's activities. One new member was welcomed into the group.

## Trousseau Tea

## Little League Playoffs Tied

## Shower Honors Recent Bride

Prior to her recent marriage, Helen Richardson was honored at a miscellaneous shower at the home of Mrs. C. Northcott and Shirley, when her school chums gathered.

The guests were divided into two groups which made bride and groom books respectively. Lynn Richardson and Betty Ann Northcott wheeled in a gaily decorated cart piled with gifts which were presented to Helen by Shirley, expressing the best wishes of those gathered.

A dainty lunch was served by Shirley, assisted by a number of the girls.

## Fines Levied At Lethbridge Under Weed Act

Three farmers of the Lethbridge district were each fined \$5 and costs in RCMP court at Lethbridge last week, under the Obnoxious Weed Act.

The charges, first under the act in more than 10 years in the Lethbridge district, were laid by E. E. Majerleson, weed inspector for the Municipal District of Lethbridge.

Mr. Majerleson told the court the farmers had failed to satisfactorily rid their fields of obnoxious weeds. Magistrate T. O'B. Gore-Hickman said that though there had been few convictions under the act, it was there to administer and he would do so with more severe penalties unless the farmers started to clean up their fields and road allowances.

Fines under the act are from \$5 to \$50 or a maximum of 30 days in jail for default in payment.

## SERVICE BOARD NOTES

H. S. Burns, Field Supervisor

Elsewhere in this issue will be found a warning notice dealing with the menace of noxious weeds in this County. It will readily be seen that unless everyone does their part in the matter of destruction of weeds and some do their part by better cultivation methods for the control of thistles, that we are in for a rough time in connection with these weeds.

If you only have a small infestation of these weeds, dig them out, cut them down and keep them cut, or come in and get some sterilant and destroy them. If your infestation is larger we can supply you with 24D with which to spray and do not be afraid to use enough. 10 to 20 ounces to the acre will surely twist down thistles and they will not recover to shed their seed around, and the cost will be small. True, some of these weeds are growing in places that are inaccessible, but in many cases they are left standing in places that are easily got at. In any case it is not fair to your neighbour who is making an honest effort to keep his farm clean, to have some one nearby who does not make any effort.

To deal effectively with these weeds, they must be dealt with at once.

was assisted by Ruby Jamison, Gwen Graham and Muriel Graham. Frieda Jones and Christine Hanson served the guests as they were ready for lunch.

## High River's Lloyd Nelson New Chuckwagon Champion

The five-year reign of Hank Willard as king of the chuckwagon drivers ended this year but his prowess as a driver was again displayed in the consolation races Saturday morning at the Stampede when he drove the Eresman Brothers outfit to top money in the morning's races.

Commodore Allen's outfit, which Hank was again driving in the regular evening races at this year's Calgary Stampede, had lost its top horses in an accident and the new horses used this year simply didn't have the speed necessary to make the outfit a winner. It ended up in twelfth place in the field of 33 outfits.

The new world's chuckwagon racing champion is Lloyd Nelson, High River rancher, who got his start in chuckwagon racing 11 years ago when he drove a couple of times for Hank Willard.

### Fair Treatment Wanted

Much publicity has been given lately to charges by transport controller Milner that the CPR is at fault for the slowness of grain movement out of Alberta and South-western Saskatchewan and to the CPR's denials. Just how much this is going to help in correcting the situation remains to be seen, but there can be no denial of the fact that allocation of cars has not been on a fair basis and that the Lethbridge division of the CPR has definitely been getting the short end of the stick.

Many Central Alberta points are on seven and even eight bushel quotas and at least two points, to our knowledge, on the Macleod-Calgary line are on six-bushel quotas. Meanwhile, the highest quota at any point on the Aldersyde line is five bushels, with not enough room to handle this amount of wheat. A lot of cars are needed—and soon—if farmers on this line are going to get a fair break at all in selling their wheat.

This "passing-the-buck" game between the Wheat Board and the CPR has gone on long enough. Our farmers aren't particularly interested in who's to blame—they simply want the same opportunity to sell their grain as farmers in other parts of the province are getting. No favors are asked; just fair treatment and, above all, action instead of words.

We notice that there is a revival in tennis interest at Nanton, Hanna and several other towns. Although tennis has been dead in Vulcan for over ten years there are still enough enthusiasts around to form the nucleus of a club. If and when courts are built they will be part and parcel of the Golf & Country Club.

**LOW GRADE SALES**  
The low grade wheat which has been plugging commercial channels and storage facilities in Western Canada is pretty well cleaned up, according to Rt. Hon. C. D. Howe, Canada's minister of trade and commerce. In reply to a question in the House of Commons, he said: "As a matter of fact, we have had to withdraw offers of low grade

wheat. It is all sold."  
Fairly substantial amounts of this grain still remain in country elevators but from the Minister's statement it would appear that sales covering this grain have been made and before long remaining stocks will be moved out.

Her first stop  
— the bank

When Mrs. Wilson planned to go shopping, her husband Tom said: "Meet you at the bank." It was a natural thing to say, for going to the bank is just a part of everyday life.

In the bank, Mrs. Wilson noticed Miss Ellis the schoolteacher ... Mr. Cooper the storekeeper ... and her neighbour's son Bobby, adding to his savings account.

When Tom arrived, he grinned: "Seems like everybody goes to the bank." It's true. Canadians find the chartered banks such a safe and handy place to keep money that practically everybody has a bank account. There are now more than 10 million deposit accounts in the chartered banks—more accounts than there are adults in the country.

Summerfallowing, An Expensive And Important Practice

According to results recently received from the Experimental farm at Lethbridge, the average cost of summerfallow on ten Illustration Station farms in Southern Alberta was \$7.55 during 1955. This worked out to about one-third of the cost per acre of producing wheat on fallow. Cost of summerfallowing has been found to vary with the precipitation, soil texture, and topography.

At the Claresholm and Pincher Creek Illustration Stations costs were reduced to cover cropping or using cereals for hay during the fallow period. However, in areas where precipitation is more limited a complete summerfallow has proved to be a more profitable practice. The effect of cover crop on yields of winter wheat are indicated by some work which was carried on at the Claresholm Station for one year. Four varieties of winter wheat were seeded on summerfallow on which oats, wheat, barley and no cover crop had been grown. The average yield of the four varieties of winter wheat was 2.5, 4.8, and 7.3 bushels per acre less when grown on oats, wheat, and barley cover crops respectively — than when grown on no cover crop. (These results indicate that cover crop is a factor effecting the yields of the succeeding cereal crops. These figures indicate that oat cover crop does not reduce the yield as much as wheat or barley.)

Since the cost of summerfallowing is one of the major operating expenses, every effort should be made to obtain the greatest possible value. This was pointed out by some work that was done on Illustration Stations in south-western Saskatchewan over the past seven years. Records were kept of field operations, weed growth, and the cost of field work. The latter includes machinery cost, gas, oil, grease and labor. Good and poor fallow operations were done in or-

### Science Shrinks Piles New Way Without Surgery

Finds Healing Substance That Does Both—  
Relieves Pain—Shrinks Hemorrhoids

**Toronto, Ont. (Special)**—For the first time science has found a new healing substance with the astonishing ability to shrink hemorrhoids and to relieve pain. Thousands have been relieved—without resort to surgery. In case after case, while gently relieving pain, actual reduction (shrinkage) took place.

Most amazing of all—results were so thorough that sufferers made astonishing statements like "Piles have ceased to be a problem!"

The secret is a new healing substance (Bio-Dyne)—discovery of a famous scientific institute.

Now you can get this new healing substance in suppository or ointment form called **Preparation H**. Ask for it at all drug stores. Satisfaction guaranteed or money refunded.

der to obtain a comparison. For the good fallow, the first operation was completed as soon as possible after seeding. For the poor fallow, the first operation was delayed until the last week in June. After the first operation both fallows were worked as often as required for good weed control.

On the average, one more field

operation was performed on the good fallow at a cost of \$0.70 per acre. However, this extra work resulted in an increased yield of 3.2 bushels per acre. This is a net return on investment of over 500 per cent. These experiments were made during years of favorable moisture conditions, but a good job of summerfallowing still paid dividends.

### MAJORVILLE

#### Propane Stove Explodes At The Larry Umschied Home

A strange incident occurred at the farm home of Larry Umschied last week when the propane kitchen stove exploded. Mrs. Umschied was alone in the kitchen at the time and heard a hissing from one of the burners. She went to the barn for Larry and just as she got there they heard the explosion.

Returning on the run to the house they found the stove scattered in pieces all over the kitchen. The oven door and the broiler door were blown off and the burners scattered separately over the floor. A window in the house was cracked and all the pictures and a mirror in the living room were broken.

Fortunately no one was injured as the children were in bed at the time. Just what caused the gas leak isn't known, although it is supposed that one of the knobs was stuck in such a manner that gas was leaking. As the pilot light hadn't been working at the time there was no flame and that also is fortunate, as otherwise there could have been a disastrous fire. It is a lesson to keep all parts of stoves in working order.

Gas stoves do explode and faulty wiring on electric stoves has started fires.

Of local interest is the birth of a daughter to Mr. and Mrs. Hohn (nee Shirley Edwards) of Bassano in Bassano hospital.

Guests last week at the home of Mr. and Mrs. Hugh Winch were Mr. and Mrs. Vic Scott and Mr. and Mrs. Bud Long, of Edmonton.

An oldtimer in Majorville is one who can remember when one fisherman could phone another and say: "Let's go to the river for a tub of pike so the missus can can some for winter." And the pair could go to the river and return with a tub of fish to can. Now for a number of years it is a waste of time and money to go to the river to catch a mess of pike. Lucky is the fellow who can take a trip to the old haunts and come back home with fish for supper. Maybe the fish are getting smart.

"It is appointed unto men once to die but after this the judgement"

Hebrews 9:27

"He that believeth on Him (Jesus) is not condemned; but he that believeth not is condemned already because he hath not believed in the name of the only begotten Son of God." John 3:18

"There is therefore now no condemnation (or judgement) to them which are in Christ Jesus."

Romans 8:1

Now are we free — there's no condemnation. Jesus provides a perfect salvation.

"Come unto Me," oh, hear his sweet call!

Come, and He saves us once for all.

*The Dickens you say...*

Maybe Charles Dickens was gazing into a crystal — or aluminum — ball when he made this prediction a century ago about a strange new metal called aluminum. He wrote:

"What do you think of metal as white as silver, as unalterable as gold, as easily melted as copper, as tough as iron? ... In proportion as the cheap production of aluminum becomes more and more an established fact, the more we shall find it entering into household uses — for travelling purposes, for instance, for which its lightness is no small merit."

Very good, Charles — especially that bit about cheap production. That day has arrived, as Alcan's vast production and world sales prove.
